

LANE TECH SHEET

Threaded EZ Lift Pin Inserts

- The one-piece Lane Threaded Lift Pin Inserts are precisely manufactured to fit the Lane EZ Lift Pin.
- These heavy-constructed Threaded Lift Pin Inserts are a one-piece injection molded part. This insures a water and vacuum tight fit.
- The outside rings eliminate infiltration or exfiltration along the outside of the part.
- Suitable for both wet and dry cast operations.
- Be assured of a positive fit each and every time.
- The Lane Threaded Lift Pin Inserts are to only be used with the original Lane EZ Lift Pins.
